

Vue Frontend: Practice

1. Create Major webpage (<http://localhost:3000/major>) that can show the list of students according to the selected major.
 - This page/url can be accessed by authorized users. Unauthorized user will be redirected to SignIn page
 - The student list can be filtered by selected major
 - The student data can be call by using this API:
 - {{URL}}/eastudents/major/major_value
 - For example: {{URL}}/eastudents/major/icci
2. Add the “Major” link at the menu on the top
